

Details of the Program

Physical sections of the school function in Cycles, with different length of each cycle, depending on the location. The program includes the book, a system to practice on and a DIY classes on a module build up. Public workshops all over the world are also organised, as well as individual one-on-one practices in person or online as MM Express program. Alternatively one can learn only by ordering the book, with additional videos on The Platform, created exclusively for book owners.

How to Sign In

To sign in to classes at any section, simply follow the website links or contact via email:

LEARN MODULAR SOUND SYNTHESIS

Modular Sound Synthesis is considered to be a rare type of musical activity. Fully meditative, it is deep and unique - and now also available worldwide.

WELCOME TO

MODULAR MOON MODULAR SYNTHESIS SCHOOL

The School Of Sound Synthesis

Welcome to Modular Moon - a planet for self expression in sound synthesis field. Here one can discover, connect, prototype and create a **modular synthesis system**. We give classes, organise workshops, events and individual trainings. This is a sonic realm, a place to create and listen. Our school has multiple sections all over the world, with the headquarters in Amsterdam, The Netherlands, where the school begun its journey. The school has levels of activity, from online till physical.

The Program

We designed a program that guides any individual into the modular synthesis realm. The Program is manifested in a form of a book: *Modular Sound Synthesis On the Moon*, by Tulpa Dusha & Pete Johnston. With challenging yet simple steps this deep topic is explained so anyone can understand basic principles behind this rare type of audio generation environment. Guided by top level artists and inventors, the program is accessible to any individual at any level of their musical career.
